

Course Objectives

This Nationally Accredited course is designed for persons who are required to work in or on confined spaces.

All persons working in or on confined spaces must be trained to do so and comply with relevant state/territory legislative requirements and AS/NZS 2865:2009. The course presents a broad range of potential confined space hazards, how to correctly assess & control hazards, implementation of safe work procedures, including the selection and use of equipment and the need for a suitable rescue plan.

Successful attendees will be assessed as competent to undertake risk assessment, entry permit use and operate PPE such as gas detection & access equipment required for safe working.

Enter Confined Space

*MSAPMAPER205C Enter Confined Space
MSAOHS217A Gas Test Atmospheres
MSAPMPER200C Work in accordance with an issued permit*

Course Content

- Introduction
- Standards & Legislation
- Definitions
- What is a confined space?
- Roles & Responsibilities
- Hazard Assessment and Control
